

Zapisnik sa sastanka Hrvatskog kardiološkog društva — Podružnica sjeverozapadne Hrvatske

Tanja Marčec

Opća bolnica Čakovec, Čakovec, Hrvatska • Čakovec General Hospital, Čakovec, Croatia

Dana 28. siječnja 2009. godine u Varaždinu održana je 2. izborna skupština Hrvatskog kardiološkog društva — Podružnica sjeverozapadne Hrvatske sa stručnom tematikom. Naznačeno je bilo 21 od ukupno 35 članova podružnice.

Skupštinu je otvorio predsjednik dr. Dubravko Tršinski i predložio je izbor radnih tijela. Za predsjedavajućeg izabrana je jednoglasno prim. dr. Ksenija Pešek iz Opće bolnice Zabok, za članove su jednoglasno izabrani dr. Rudolf Hranilović iz Opće bolnice Čakovec te dr. Krešimir Šutalo iz Opće bolnice Koprivnica. Za zapisničara je jednoglasno izabrana dr. Tanja Marčec iz Opće bolnice Čakovec.

Nakon izbora radnog tijela Prim. Pešek, kao predsjedavajuća, predložila je dnevni red koji je jednoglasno usvojen. Kao prva točka dnevnog reda bio je osvrt predsjednika na dosadašnji rad. Najvažnija točka izvještaja je uključivanje naše podružnice u provedbu perkutane koronarne intervencije u akutnoj fazi infarkta miokarda s elevacijom ST-segmenta, koji se uspješno provodi u svim bolnicama podružnice. Godišnji sastanci su održavani u svim županijama, a prijedlog je da budu i dalje najmanje dva puta godišnje. Poseban osvrt dat je na dosadašnje akcije u prevenciji i edukaciji stanovništva naših županija, što treba i dalje nastaviti. Zaključak izvješća bio je da je podružnica do sada uspješno radila i da treba nastaviti sve aktivnosti kao do sada. Izvještaj predsjednika je jednoglasno prihvaćen bez primjedbi.

Druga točka dnevnog reda bilo je predavanje dr. Dubravka Tršinskog pod nazivom "Novi kombinirani antihipertenziv", a treća točka bilo je predavanje gosta iz Kliničkog bolničkog centra Zagreb, prim. dr. sc. Puljević, pod nazivom "Suвременi pristup liječenju i prevenciji aritmija".

Četvrta točka dnevnog reda bila je izbor novog Upravnog odbora podružnice. Jednoglasno je odlučeno da glasovanje bude javno. Svi kandidati koji su bili predloženi, jednoglasno su i izabrani: za predsjednika dr. Dubravko Tršinski iz Opće bolnice Varaždin, dopredsjednicu prim. dr. Ksenija Pešek iz Opće bolnice Zabok te za tajnika prim. dr. sc. Mario Ivanuša iz Opće bolnice Bjelovar. Članovi su dr. Željka Bakliža iz Opće bolnice Koprivnica i dr. Milica Gabor iz Opće bolnice Čakovec.

Na izboru se u ime svih zahvalio predsjednik dr. Dubravko Tršinski s naglaskom na akcijama koje nas očekuju sljedećim godinama i to da održimo namjane dva puta godišnje stručne sastanke u županijama, da unapređujemo razvoj struke uz pojačan rad i na prevenciji kardiovaskularnih bolesti edukacijom stanovništva.

Pokrenut će se i program registara na nivou podružnice i nastaviti osnivanje udruga bolesnika, što je u pojedinim

Meeting Minutes for the Croatian Cardiac Society — North-Western Subsidiary

Second Election General Meeting of the Croatian Cardiac Society — North-Western Subsidiary was held on 28th January 2009 in Varaždin with professional theme. There were 21 out of 35 members of the Subsidiary present.

The General Meeting was opened by President Dubravko Tršinski, MD and suggested the election of task force bodies. Head doctor Ksenija Pešek working for the Zabok General Hospital was unanimously elected as a chairwoman, while Rudolf Hranilović, MD working for the Čakovec General Hospital and Krešimir Šutalo, MD working for the Koprivnica General Hospital were elected as members. Tanja Marčec, MD working for the Čakovec General Hospital was unanimously elected as a recorder.

Following the election of the task force bodies, Pešek, Head Doctor acting as a chairwoman put forward agenda that was unanimously adopted. The first item in the agenda was an overview made by the Chairwoman of the former chairman's work. The most important item in the report is involvement of our Subsidiary in the implementation of percutaneous coronary intervention in acute phase of myocardial infarction with ST-segment elevation that is successfully implemented in all hospitals of the Subsidiary. Annual meetings have been held in all counties so far and the proposal was that they should be held at least two times a year. A special overview of former action done in prevention and education of population in our counties which is to be continued, was made. The conclusion of the report was that the subsidiary had been operating successfully so far and all former activities needed to be continued as during the period up to date. The President's report was unanimously adopted with no objections.

The second item of the agenda was a lecture by Dubravko Tršinski, MD entitled "New combined antihypertensive" while the third item was a lecture by Head Doctor Puljević, PhD a guest from Clinical Hospital Centre Zagreb entitled "Modern approach to arrhythmia treatment and prevention".

The fourth item of the agenda was the election of a new management board of the Subsidiary. Public voting was unanimously decided upon. All candidates that were proposed were unanimously elected:

President: Dubravko Tršinski, MD from the Varaždin General Hospital; Deputy President: Head Doctor Ksenija Pešek from the Zabok General Hospital; Secretary: Head Doctor Mario Ivanuša, PhD from the Bjelovar General Hospital. Members are Željka Bakliža, MD from the Koprivnica General Hospital and Milica Gabor, MD from the Čakovec General Hospital.

At elections in the name of all attendees, President Dubravko Tršinski, MD expressed gratitude focusing on activities that are awaiting us in the years to come and suggested that expert meetings should be held at least twice a year in the counties, focusing on promotion of the development of the profession with more intensified work on prevention of cardiovascular diseases by educating the population.

županijama već započeto, tako da sve županije naše podružnice imaju isti pristup u liječenju i prevenciji.

The program of registers will be initiated at the level of the Subsidiary and the process of establishing some other patients' associations will go on, which has been started in some counties, so all counties of our subsidiary will have a same approach to treatment and prevention.
