

Postupak ućlanjenja novih  lanova u HKD

Zainteresirani kolege trebaju se javiti Tajniku Hrvatskog kardiološkog društva dr. Darku Poćaniću (darko.pocanic@zg.t-com.hr) u Kliniĉku bolnicu Merkur Zagreb.

Po uzimanju potrebnih podatka (titula, ime i prezime, spol, naziv ustanove, naziv odjela, adresa ustanove, poštanski broj i grad, e-mail, te neobavezno kućna adresa)  e se, u skladu s procedurom, izvršiti ućlanjenje na idućem sastanku Upravog odbora.

Tajnik/Secretary:
Dr. Darko Poćanić

Predsjednik/President:
Prof. dr. sc. Davor Milićić

Vijest

5. srednjoeuropski kongres o hipertenziji 2. hrvatski kongres o hipertenziji 2. hrvatski simpozij medicinskih sestara o hipertenziji Zagreb, 22. - 25. 10. 2009.

Ćast nam je pozvati vas na PETI SREDNJOEUROPSKI KONGRES O HIPERTENZIJII (5. CEM) koji  e biti odrţan u Zagrebu od 22. do 24. listopada 2009. godine. Hrvatsko društvo za hipertenziju poziva vas na ovaj vaţan struĉni i znanstveni skup, kao i na DRUGI KONGRES O HIPERTENZIJII našeg društva koji  e biti organiziran u nastavku 5. CEM od 24. do 25. listopada 2009. godine. Sluţbeni jezici za oba sastanka bit  e hrvatski i engleski te  e biti organizirano simultano prevođenje.

Cilj 5. CEM je nastaviti tradiciju prethodnih uspješnih sastanaka (2001. Cesky Krumlov; 2003. Portoroţ; 2005. Sopron; 2007. Krakow), koji su zanimljivim i edukativnim izlaganjima i diskusijama potaknuli nacionalna društva na dodatne aktivnosti. Nadamo se da  e 5. CEM biti sljedeći korak u našim nastojanjima da se poboljša lijećenje i kontrola hipertenzije te ujedno smanji pobol i smrtnost od kardiovaskularnih bolesti.

Razmjena znanja i iskustva korisni je naĉin ućenja, stoga smo pozvali sve srednjoeuropske zemlje da prezentiraju rezultate recentnih vaţnijih studija provedenih u pojedinoj drţavi. Najvaţniji je cilj srednjeeuropskih sastanaka poboljšati primarnu i sekundarnu prevenciju, pribliţiti smjernice svakodnevnom radu te poboljšati ustrajnost bolesnika pri uzimanju lijekova, ali i promjeni ţivotnih navika.

5. CEM je također izvrsna prilika za upoznavanje kolega i daljnju suradnju te je uz znanstveni program uvijek predviđeno vrijeme za kulturne i društvene događaje. Nadamo se, stoga, da  ete sudjelovati na 5. CEM i 2. HRVATSKOM KONGRESU O HIPERTENZIJII, gdje  emo pokušati proširiti naša znanja, a vaše  e sudjelovanje uvelike pridonijeti uspjehu i kvaliteti ovog sastanka.

Radujemo se susretu u Zagrebu.

Procedure of becoming new members in the CCS

The colleagues interested in joining the above Croatian Cardiac Society need to report to Darko Poćanić, MD, the Secretary of the Croatian Cardiac Society (darko.pocanic@zg.t-com.hr) in the Clinical Hospital Merkur in Zagreb.

Following the procedure of taking required details (titles, first name and family name, gender, name of institution, name of department, address of institution, zip code and town, e-mail, and not necessarily house address) the membership will be registered at the next meeting of the Management Board in compliance with the procedure.

News

5th Central European Meeting on Hypertension, 2nd Croatian Congress on Hypertension, 2nd Croatian Congress of Nurses in Hypertension Zagreb, Croatia, October 22-25, 2009

It is our honor and privilege to invite you to the 5th Central European Meeting on Hypertension (5th CEM) that will be held in Zagreb, Croatia on October 22-24, 2009. The Croatian Society of Hypertension is honored to invite you to this scientific conference as well as to the Second Congress on Hypertension of our society that will be organized following the CEM on October 24-25, 2009. For both meetings, English will be the official language.

The aim of the 5th CEM is to continue the tradition of previous successful meetings (2001 Cesky Krumlov; 2003 Portoro ; 2005 Sopron; 2007 Krakow) when interesting lectures and fruitful discussion were stimulating to national societies. We hope that the 5th CEM will be another step in our efforts to improve treatment and control of hypertension and therefore reduce cardiovascular morbidity and mortality.

Sharing knowledge and experience is always a very useful way of learning, thus we would like to invite and involve each of the Central European countries to present data of recent and important studies conducted in each country. The essential aim of the Central European Meetings is to improve primary and secondary prevention, implementation of guidelines, and to advance patients' adherence to drug therapy and lifestyle changes.

The CEM is also a very good opportunity for establishing contacts and network for collaboration but, in addition to the scientific program, there is always time for enjoying social and cultural events.

We hope that you will attend this meeting where we will try to expand the body of our knowledge and your attendance will contribute to the success and quality.

Looking forward to hearing from you soon, and of course, to seeing you in Zagreb.
