

Novosti u kardiovaskularnoj medicini — razgovori i perspektive

Dubrovnik, 1. do 4. listopada 2009.,
Hotel "Excelsior"

Tijekom dvoipodnevnog programa istaknuti međunarodni predavači predstaviti će novosti o glavnim temama iz područja kardiovaskularne medicini.

Tečaj predstavlja edukativni program kojeg sastavlja Odbor za edukaciju i akreditaciju Europskog kardiološkog društva (ESC).

Ciljevi tečaja:

- Predstaviti najnovija znanstvena dostignuća (od teorija do prakse) uz osvrt na praksu kardiovaskularne medicine;
- Prikazati trenutne smjernice za prevenciju, dijagnozu i liječenje kardiovaskularnih bolesti;
- Raspraviti o implikacijama ovih prezentacija kroz interaktivni razgovor i sastanke s vodećim stručnjacima.

Cilj je pružiti visoki stupanj edukacije i proširiti najnovije znanje o napretku u prevenciji, dijagnozi, kao i farmakološkom i intervencijskom liječenju kardiovaskularnih bolesti. Znanstveni program pokriva široki spektar tema, uključujući aterosklerozu i čimbenike rizika, prevenciju i rehabilitaciju kardiovaskularnih bolesti, koronarnu bolest srca, akutne koronarne sindrome, strategije revaskularizacije, aritmije i zatajivanje srca. Poseban naglasak je stavljen na probleme praktične implementacije najnovijih ESC smjernica u različitim područjima kardiovaskularne medicine.

Novosti u kardiovaskularnoj medicini — razgovori & perspektive su osmišljene za kliničare koji su specijalizirali kardiologiju, internu i opću medicinu. Osim tradicionalnih predavanja, jak naglasak je stavljen na interaktivnu edukaciju s ciljem pružanja smjernica za svakodnevnu praksu.

Sadrži uključuju predavanja (pet sekcija) i razgovore (pet sekcija).

Poster sekcija će informirati o novim znanstvenim dostignućima u kardiologiji.

Tijekom četiri satelitska simpozija (sponzorirana od strane industrije) predstaviti će se i raspraviti neki od najzastupljenijih problema današnje kardiovaskularne medicine.

Duh tečaja je stimulirajuće radno i edukacijsko okruženje kombinirano s različitim informativnim događajima i mogućnostima za izravnu interakciju između predavača i sudionika.

Update in cardiovascular medicine — dialogues & perspectives

Dubrovnik, Croatia, October 1st - 4th,
2009, Hotel "Excelsior"

This two and a half days programme offers a comprehensive update of major topics in cardiovascular medicine today presented by a distinguished international teaching faculty.

The course is an educational programme by the ESC Education and Accreditation Committee.

Course objectives:

- To present latest scientific achievements (from bench to bedside) with perspective on the practice of cardiovascular medicine
- To review current guidelines for prevention, diagnosis and management of cardiovascular disease
- To discuss the implications of these presentations through interactive discussion and meet-the-expert sessions

The aim is to provide a high level education and disseminate the latest knowledge about advances in the prevention, diagnosis as well as pharmacological and interventional treatment of cardiovascular diseases. The scientific programme covers a broad spectrum of topics including atherosclerosis and its risk factors, prevention and rehabilitation of cardiovascular diseases, coronary artery disease, acute coronary syndromes, revascularization strategies, arrhythmias, and heart failure. Special emphasis has been placed on the issues in practical implementation of the most recent ESC Practice Guidelines in different fields of cardiovascular medicine.

Update in cardiovascular medicine — dialogues & perspectives is designed for clinicians specialized in cardiology, internal and general medicine. Besides the traditional state of the art lectures a strong emphasis is placed on interactive education with the aim to provide guidance in everyday practice.

The features include update lectures (5 sessions) and dialogues (5 sessions).

Poster Sessions will inform about new scientific findings at the frontiers of cardiology.

During 4 satellite symposia (sponsored by the industry), few of the most challenging contemporary issues in cardiovascular medicine will be presented and debated.

The spirit of the course is a stimulating working and learning environment combined with a variety of informal events and opportunities for direct interactions between faculty members and participants.
