strongly supported the initiative and thinks that this unique register is the necessity of the invasive cardiology. In the forthcoming period, it will be tried at some other centers and its implementation in Croatia will be discussed at one of the meetings of the WG.

The next meeting of the MB is agreed to be held on 9<sup>th</sup> March at 17 o'clock at the Faculty of Medicine in Zagreb.

The meeting was adjourned at 19.30 o'clock.

## CROatian Student Summit 6 (CROSS 6)

CROatian Student Summit (CROSS) međunarodni je znanstveni kongres studenata i mladih znanstvenika biomedicinskog područja.

Projekt je pokrenuo Studentski zbor Medicinskog fakulteta Sveučilišta u Zagrebu akademske godine 2004./2005., a kao suradnici u projekt su bili uključeni i Stomatološki, Veterinarski te Farmaceutsko-biokemijski fakultet Sveučilišta u Zagrebu.

Šesti kongres u nizu, CROSS 6, koji će se održati od 24. do 27. ožujka 2010. na Medicinskom fakultetu u Zagrebu, Šalata 3, također organizira Studentski zbor Medicinskog fakulteta u Zagrebu s gore navedenim fakultetima kao suradnicima.

Riječ je o projektu Studentskog zbora Medicinskog fakulteta Sveučilišta u Zagrebu koji je proteklih godina pronašao svoje mjesto kao jedan od vodećih kongresa u svom području među studentima i mladim znanstvenicima u Hrvatskoj, ali i u široj regiji.

Glavna tema ovogodišnjeg kongresa je srce. Ovogodišnji niz izlaganja započet ćemo radom i funkcioniranjem normalnoga srca, nastaviti patološkim aspektima srčanih bolesti, a završiti srodnim kliničkim granama koje se bave ovom tematikom.

Veliku podršku u ostvarivanju ove ideje kao i u cjelokupnoj organizaciji kongresa pružio nam je prof. dr. sc. Davor Miličić, dekan Medicinskog fakulteta Sveučilišta u Zagrebu te Hrvatsko kardiološko društvo koje je ujedno i glavni pokrovitelj kongresa.

Svečano otvorenje kongresa će se održati 24. ožujka u dvorani "Čačković" Medicinskog fakulteta Sveučilišta u Zagrebu, Šalata 3. Iznimna nam je čast što će uvodno predavanje pod naslovom "Kardiovaskularni kontinuum" održati upravo dekan Medicinskog fakulteta, prof. dr. sc. Davor Miličić.

CROatian Student Summit (CROSS) is an international scientific congress of students and young scientists in biomedical area.

The project was initiated by the Students' Association of the Faculty of Medicine of the Zagreb University during the academic year 2004/2005 whereas the project was joined by Dental Medicine, Veterinary and Pharmaceutical and Biochemical Faculty of the Zagreb University as associates.

The sixth congress in line, CROSS 6, that will be held from 24<sup>th</sup> to 27<sup>th</sup> March 2010 at the Faculty of Medicine in Zagreb, Šalata 3, is also organized by the Students' Association of the Faculty of Medicine in Zagreb together with the above mentioned Faculties as associates.

It is the project of the Students' Association of the Faculty of Medicine of the Zagreb University that has during the few last years been regarded as one of the leading congresses in its area among students and young scientists not only in Croatia, but also in the wider region.

The main topic of the congress this year is the heart. We shall start our series of lectures by speaking about functioning of normal heart, followed by pathological aspects of heart diseases finishing with related clinical branches that are concerned with this topic.

A great support in realization of this idea and in the whole organization of this congress was provided to us by Prof. Davor Miličić, PhD, the Dean of the Faculty of Medicine of the Zagreb University and Croatian Cardiac Society that is the main sponsor of the Congress.

Ceremonial opening of the congress will be held on 24<sup>th</sup> March in the hall "Čačković" of the Faculty of Medicine of the Zagreb University, Šalata 3. We are especially honored by introductory lecture entitled "Cardiovascular continuum" to be held by the Dean of the Faculty of Medicine, Prof. Davor Miličić, PhD.
