

Izborna skupština Podružnice Hrvatskog kardiološkog društva Slavonija i Baranja

Elective Assembly of the Regional Branch of the Croatian Cardiac Society Slavonia and Baranja

Zorin Makarović*

*Klinički bolnički centar Osijek, Osijek, Hrvatska
University Hospital Center Osijek, Osijek, Croatia*

Izborna skupština Podružnice Hrvatskog kardiološkog društva (HKD) Slavonija i Baranja održana je u Vukovaru 3. lipnja 2011. godine. Sastanku su bili nazočni kardiolozi iz svih pet slavonskih županija odnosno svih bolnica s ovoga područja, osim Pakraca.

Predsjednik Podružnice Pejo Samardžić, dr. med. podnio je kratko izvješće o radu i aktivnostima, iz kojega izdajamo:

“U proteklih 14-15 godina koliko Podružnica djeluje prolazila je kroz aktivnija i pasivnija razdoblja u svome djelovanju. Ipak se može reći da je Podružnica dala svoj doprinos razvoju slavonske kardiologije. Kroz druženja i stručne sastanke koji su se održavali diljem Slavonije bolje smo se upoznali, bolje razumjeli i međusobno pomagali u boljem zbrinjavanju naših bolesnika.

Danas sve naše bolnice imaju mogućnost neinvazivne obrade srčanih bolesnika, povezanost i suradnja među kardiolozima je primjerena, a posebno smo ponosni na dva dobro etablirana centra interventne kardiologije koji su sada već dobro ekipirani i sposobni zadovoljiti potrebe pučanstva naše regije. Poseban doprinos kvaliteti skrbi o kardiološkim bolesnicima dao je i jedini slavonski Kardiorurški centar u Osijeku.

Sigurno se može još puno toga učiniti: aktivnije zastupati interese našeg prostora djelovanja, zastupati interese našeg članstva, kordinirati i promicati suradnju među bolnicama i članovima Podružnice, poticati projekte primarne prevencije, utjecati na zdravstvenu politiku u našim županijama, organizirati udruženja srčanih bolesnika, organizirati redovite stručne sastanke, simpozije...”

Nakon toga uslijedio je pozdrav prvog predsjednika Podružnice mr. sc. Marijana Jakića, dr. med. Prema Statutu HKD birao se predsjednik, tajnik i pet članova Upravnog odbora Podružnice. Za predsjednika je predložen i izabran doc. dr. sc. Robert Steiner, dr. med., a za tajnika je izabran Zorin Makarović, dr. med. Izabrani članovi Upravnog odbora su: Željko Popović, dr. med. (Virovitičko-podravska županija), Vladimir Dujmović, dr. med. (Požeško-slavonska županija), Zdravko Faletar dr. med. (Vukovarsko-srijemska županija), Zdravko Rončević dr. med. (Osječko-baranjska županija), Pejo Samardžić, dr. med. (Brodsko-posavska županija). Nakon toga skupu se obratio novoizabrani predsjednik Podružnice dr. Steiner.

Stručnom dijelu sastanka nazočile su i kardiološke sestre. U nastavku uslijedila su brojna predavanja: Možemo li učiniti više za bolesnike nakon preboljelog infarkta mio-

The Elective Assembly of the Regional Branch of the Croatian Cardiac Society (CCS) was held in Vukovar on 3rd June 2011. The meeting was attended by the cardiologists from all five Counties in Slavonia, that is, from all hospitals in this region, except for Pakrac.

The Regional Branch President, Dr Pejo Samardžić gave a short report on the activities and the work from which we would like to stress the following:

“During the last 14 to 15 years the period during which the regional Branch has been working, the Regional Branch has been going through its more active or more passive period. Anyway, we may say that the Regional Branch has given its contribution to the development of cardiology in Slavonia. While socializing and participating in expert meeting that were held throughout all the region of Slavonia, we got to know each other better, we could understand each other better and help each other in better management of our patients.

Today, all our hospitals have non-invasive workup of cardiac patients available, connection and cooperation among cardiologists is adequate, and we are especially proud of two renowned interventional cardiology centers that now have teams and that have capacity to meet the requirements of the population in our region. A special contribution to the quality of care of cardiac patients has been given by the only Slavonian center of cardiac surgery in Osijek.

There are still many other things that need to be done: to more actively represent the interests of our work in the region, represent the interests of our membership, coordinate and improve the cooperation among hospitals and members in the Regional Branch, stimulate primary prevention projects, influence the health policy in our counties, organize associations of our cardiac patients, organize ordinary expert meetings, symposiums...”

This was followed by the greeting by Dr Marijan Jakić, MSc, the first President of the Regional Branch. The President, Secretary and five members of the Management Board were elected according to the Statute of the CCS. Ass Prof Robert Steiner, MD, PhD was proposed and elected to be the President, while Dr Zorin Makarović was elected to be the Secretary. The elected members of the Management Board are: Dr Željko Popović (County of Virovitica and Podravina), Dr Vladimir Dujmović (County of Požega and Slavonija), Dr Zdravko Faletar (County of Vukovar and Srijem), Dr Zdravko Rončević (County of Os-

karda? — Pejo Samardžić, dr. med. (OB Slavonski Brod); Prikaz bolesnika s preboljelim infarktom miokarda — Zorin Makarović, dr. med. (KBC Osijek); Prikaz bolesnika s preboljelim infarktom miokarda — Krešimir Gabaldo, dr. med. (OB Slavonski Brod); PCI kao terapijska opcija za akutni infarkt miokarda — doc. dr. sc. Robert Steiner, dr. med. (KBC Osijek); Edukacija bolesnika nakon preboljelog infarkta miokarda — Ana Ljubas, VMS (KBC Zagreb).

Skup je završio zajedničkim druženjem u gradu heroju, Vukovaru.

Received: 4th Sep 2011
